PROFILE

Front-End Engineer with **10+ years of experience** delivering enterprise-scale, high-performance web applications using **Angular, React, TypeScript, micro-frontends, and modern UI architecture**. Proven success in building component libraries, optimising complex CMS-driven systems, and leading UI engineering for major brands.

Currently completing a **Software Engineering programme (2025)** to expand into full-stack development (Node.js, APIs, cloud fundamentals). Seeking opportunities in your organization's innovative tech ecosystem to contribute advanced UI engineering skills and technical leadership.

CORE TECHNICAL SKILLS

Front-End Development

- JavaScript (ES6+), TypeScript
- Angular, React.js, Next.js
- Tailwind CSS, Bootstrap, Material UI, Design Systems

Architecture & Performance

- Micro-frontends
- Component libraries
- Lighthouse, Web Vitals, Performance Debugging
- Code-splitting, caching, lazy loading

Backend & Full-Stack Foundations

- Node.js (fundamentals)
- REST APIs, GraphQL

Tools & DevOps

- Git (GitLab/GitHub), Jira
- Docker, CI/CD pipelines
- Storybook, Jest, React Testing Library

Git (GitLab/GitHub), Jira

- Docker, CI/CD pipelines
- Storybook, Jest, React Testing Library

WORK EXPERIENCE

- ❖ **Front-end Developer, Momentum** Sep 2021 — Present
- Led front-end engineering across enterprise Angular and React applications.
 - Built scalable component libraries that accelerated development by **40%**.
 - Improved CMS-driven performance (CrafterCMS) and delivered **40% faster** loading.
 - Modernised legacy systems from ASP.NET/jQuery to modern JavaScript frameworks.
 - Collaborated closely with UX, product, and backend teams to deliver end-to-end features.
 - Mentored junior developers, improving code quality and onboarding efficiency.

❖ Front-End Developer, Channel Centre	Oct 2017 — Aug 2021 Cape Town
- Transformed PSD/Figma designs into responsive, scalable applications using React.js and Angular. - Integrated GraphQL and REST APIs for enhanced real-time data interactions. - Developed and implemented design system components, increasing UI consistency and developer velocity by 50%. - Championed performance optimizations, significantly reducing bounce rates via code-splitting and caching. - Mentored junior developers, fostering a collaborative environment focused on clean coding practices.	
❖ Front-End Developer, New Media Publishing	Jan 2017 — Jul 2017 Cape Town
- Managed high-traffic WordPress websites, enhancing SEO through structured markup and modern UX patterns. - Built and deployed HTML email marketing campaigns, ensuring alignment with best practices. - Collaborated with cross-functional teams to integrate design and backend functionalities. - Optimized web application performance utilizing tools like Lighthouse and continuous integration practices. - Mentored junior developers, fostering a culture of clean code and technical excellence.	
❖ Front-End Developer, FONTERA Digital Works	Jul 2016 — Nov 2016 Cape Town
- Maintained & enhanced Magento eCommerce platforms. - Customized UI with PHP functions and PHTML templates. - Notable Project: Carrol Boyes Website - Full Magento redesign & performance optimization.	
❖ Software Developer, HSH Global Software	Jan 2013 — Jun 2016 Cape Town
- Built interactive, cross-browser websites in HTML, CSS, and JavaScript. - Designed marketing landing pages and performed rigorous QA for compatibility.	

EDUCATION	
❖ Cape Peninsula University of Technology	2010..... 2012
National Diploma in Multimedia Technology Focused on Web development, filmography and Videography	
❖ Stellenbosch University	2025
Software Engineering Bootcamp (In Progress) – Part-time	

CERTIFICATIONS & COURSES	
Advanced React.js & Next.js	2023
UX/UI Design	2019
JavaScript Algorithms & Data Structures	2022
Stellenbosch University — Software Engineering Bootcamp	(2025, In progress)

HIGHLIGHTED PROJECTS

Momentum Group Website

- Angular & CrafterCMS build with enterprise scalability. <https://www.momentumgroupltd.co.za/>

Momentum Health Quote Journey

- Complex form handling with Angular & CMS. <https://www.momentum.co.za/momentum/personal/medical-aid/medical-aid-quote>

Curate Investments

- Custom UI with interactive animations and Angular integration. <https://www.curateinvestments.com/sa>

Carrol Boyes Website

- Magento redesign & maintenance. <https://carrolboyes.com/>

Mediclinic

- WordPress redesign & performance upgrade. <https://www.mediclinic.co.za/en/corporate/home.html>

Matildas, Taste, Granadilla Swim, Matrix24

- Front-end builds & enhancements across CMS/e-commerce.
- <https://www.matildas.co.za/>, <https://taste.co.za/> ,
- <https://granadillaswim.com/>, <http://www.matrix24.co.za/>

LEADERSHIP & CONTRIBUTIONS

- Mentored junior developers and facilitated code reviews to enforce best practices.
- Championed front-end performance culture (lazy loading, CDN, code-splitting).
- Contributed to building internal design systems and reusable component libraries.
- Advocated for accessibility-first design and user-centered development practices.
